How the Next 24 Hours Work

Teams of 2–4

Cross-discipline teams welcome. Solo builders — we'll help you find a team tonight.

Pick ONE track

Commit to a single workflow. Depth wins over breadth.

No-code / low-code tools

Copilot Studio is primary. Any no-code AI platform is fair game.

Judging at 1 PM Friday

BIF 3001 & 3003 · 7-min slot (3-min demo + Q&A).

Winners earn \$600(\$500 + \$100) per team member. Runners-up take \$400(\$300+\$100) and \$300(\$200+100). Each track winner wins \$100 per member.

EMERGENCIES

Find an organizer in orange

Made possible by students.

This buildathon exists because these two organizations showed up and built it.

TECHNICAL

**Agentic
AI @
UIUC**

*Tooling, Copilot Studio workshops,
mentor ops, and the bot keeping you
on track all weekend.*

OPERATIONS

**Disruption
Lab**

*Logistics, production, judging
flow, and everything happening
behind the scenes to make
tonight run.*

OPERATIONS

**Build
Illinois**

*Marketing and Outreach
communication through the campus
helping make today's event happen*

And thank you to every organizer, champion, and mentor who said yes.
